REPORT AND ORDER (Proceeding Terminated)

Adopted: May 4, 2005

y 4, 2005 Released: May 6, 2005

By the Assistant Chief, Audio Division, Media Bureau:

- 1. The Audio Division has before it the Notice of Proposed Rule Making ("Notice") issued in response to a Petition for Rule Making filed by Hancock Communications, Inc. ("Petitioner"), licensee of Station WLME(FM)("WLME"), Channel 275C3. Cannelton, Indiana, and Station WTCJ-FM, Channel 289A, Tell City, Indiana. Petitioner filed comments expressing its intent to implement its rulemaking requests. No counterproposals or other comments were filed. For the reasons stated below, we grant Petitioner's rulemaking petition.
- 2. At the request of Petitioner, the *Notice* proposed that Channel 275C3, Station WLME, be reallotted from Cannelton to Tell City, Indiana, and that Station WLME's license be modified to reflect the change of community. Since this proposal would remove the sole local aural transmission service from Cannelton, Petitioner proposed the reallotment of Channel 289A from Tell City to Cannelton and the modification of Station WTCJ-FM's license accordingly. Petitioner made the foregoing reallotment requests pursuant to Section 1.420(i) of the Commission's rules,² which permits the modification of a station's authorization to specify a new community of license without affording other interested parties an opportunity to file competing expressions of interest.³ In considering a reallotment proposal, we compare the existing allotment to the proposed allotment to determine whether the reallotment will result in a preferential arrangement of allotments. This determination is based upon the FM allotment priorities.⁴
- 3. We find that Petitioners' reallotment requests would result in a preferential arrangement of allotments under the FM allotment priorities because grant of those requests would result in net

² 47 C.F.R. § 1.420(i).

³ See Modification of FM and TV Authorizations to Specify a New Community of License, 4 FCC Rcd 4870 (1989), recon. granted in part, 5 FCC Rcd 7094 (1990).

⁴ See Revision of FM Assignment Policies and Procedures, 90 FCC 2d 88 (1982). The FM allotment priorities are: (1) first full-time aural service; (2) second full-time aural service; (3) first local service and (4) other public interest matters. Equal weight is given to priorities (2) and (3).

service gains to 49,850 persons under priority (4) of the FM priorities ("other public interest matters"). We also observe that Petitioner's reallotment requests would not deprive either Tell City or Cannelton of its sole local aural transmission outlet. Therefore, in accordance with the provisions of Section 1.420 (i) of the Commission's rules,⁵ we will grant Petitioner's reallotment requests. In addition, we shall condition the commencement of service on Channel 275C3, by Station WLME, at Tell City on the commencement of service on Channel 289A, by Station WTCJ-FM, at Cannelton to avoid any disruption of local service to Cannelton.

- 4. Consistent with the technical requirements of the Commission's rules, Channel 275C3 can be reallotted from Cannelton to Tell City, Indiana, utilizing coordinates of 37-50-52 NL and 86-36-18 WL, with a site restriction of 18.4 kilometers (11.4 miles) southeast of Tell City. Further, Channel 289A, Station WTCJ-FM, can be reallotted from Tell City to Cannelton, Indiana, utilizing coordinates of 37-48-13 NL and 86-48-57 WL, with a site restriction of 13.5 kilometers (8.4 Miles) southeast of Cannelton.
- 5. The Commission will send a copy of this *Report and Order* in a report to be sent to Congress and the Government Accountability Office pursuant to the Congressional Review Act, see 5 U.S.C. 801(a)(1)(A).
- 6. Accordingly, pursuant to the authority contained in 47 U.S.C. Sections 4(i), 5(c)(1), 303(g) and (r) and 307(b) and 47 C.F.R. Sections 0.61, 0.204(b) and 0.283, IT IS ORDERED, That effective June 20, 2005, the FM Table of Allotments, 47 C.F.R. Section 73.202(b), IS AMENDED for the communities listed below, as follows:

- (c) Nothing contained herein shall be construed to authorize a change in transmitter location or to avoid the necessity of filing an environmental assessment pursuant to 47 C.F.R. Section 1.1307, unless the proposed facilities are categorically excluded from environmental processing.
